

Molly Mitchell

College of William and Mary
Virginia Institute of Marine Science
Center for Coastal Resources Management

Molly Mitchell graduated from the College of William and Mary with Honors in Biology and a joint degree in Environmental Science. She went on to get her Masters of Science from the Virginia Institute of Marine Science. She has worked in shallow water and intertidal systems for 15 years, focusing on research to support the development of restoration and conservation strategies in coastal ecosystems. She currently works for the Center for Coastal Resources Management at VIMS, where she is involved in grant and report writing, conducting applied research and serving as an advisor on aquatic resource management to state agencies and local governments.
